

Spill Response Plan

IN THE EVENT OF A SPILL ADHERE TO THE FOLLOWING STEPS:

1. Shut off source of spill.
2. Prevent the spill from entering any drains.
3. Confine the spill to one area.
4. Use absorbent materials to dry area.
5. Sweep up and dispose of the absorbent material properly (absorbent material is considered hazardous waste).
6. Report spill to manager.
7. Report spill to the Provincial Emergency Program if it exceeds legal thresholds.
